

As part of celebrating the 150th birth anniversary of Gandhiji, the Father of the Nation, It is proposed to take on adoption 2-villages for contributing our best for all-round development. We need to identify the various issues and problems faced by the villagers and find viable solutions to solve them. The Faculty with their technical expertise and The Students with their innovative ideas, energy and enthusiasm working together can really create wonders and make difference to the lives of those poor and the underdeveloped. Solutions for the problems identified can be worked out under EPICS. This initiative is for continuous and sustainable development of the villages adopted with the voluntary participation of students and faculty. The villages will be identified with the help of the Warangal District Administration.

The participation in the program can be through technical and material contributions and all those faculty and students who are willing to be a part of this program are requested to share their ideas and proposals through mail or in-person with the Dean, Student Welfare preferably before 20th September 2019.

Looking forward to take this initiative further with your kind help and cooperation.
