

Brief profile of the Department of Physics:

The Department of Physics is involved in teaching UG and PG students of Engineering and Science Programs. The department has highly qualified, motivated and experienced faculty. The department offers a three year M.Sc. (Tech.) Engineering Physics program with specializations in Photonics, Electronics and Instrumentation. The department is actively engaged in research and having a number of sponsored R & D projects. The areas of research include Nanomaterials, Glasses and Glass ceramics, Biomaterials, Luminescent materials, Ferroelectrics, Magnetic materials, Polymer degradation studies, Photonics, Electronics, Biomedical Instrumentation and Radiation physics. The department has liaison with reputed industries and R&D organizations like BEL, CSIR, DRDO, DST, ELOIRA, RCI, ARCI etc.

About NIT Warangal

National Institute of Technology Warangal, formerly known as Regional Engineering College was established in 1959. Over the years it has developed into a premier institute of higher learning and is ranked among the top technical education institutions in India. There are 14 Departments offering 8 undergraduate and 31 post-graduate besides doctoral programs. About 5000 students across the country and about 500 international students study on the campus. It is a fully residential campus sprawling over 250 acres with excellent infrastructure in the form of state of the art library, seminar halls, guest houses and laboratories.

Themes of ICAFMD-2019

The conference focuses on the latest developments in the field of functional materials and their applications. The conference is also aims at providing an interactive platform to the academia, researchers and the industry. Participations from different industries, universities and academic institutions from all over the country and abroad are anticipated. The organizing committee hereby invites scientists / technologists engaged in basic as well as applied research from the Universities, Research Institutions and Industries to participate. The scientific sessions will comprise plenary talks, invited talks, technical talks and contributed papers (both oral and posters) on the following topics.

1. **Optical materials**
2. **Biomaterials and composites**
3. **Luminescence materials**
4. **Magnetic/multiferroic/spintronic materials**
5. **Optoelectronic devices (LEDs, OLEDs)**
6. **Solar cells**
7. **Fiber optical sensors**
8. **Functional materials**
9. **Blends and Composites**
10. **Liquid crystal displays**
11. **Nanomaterials**
12. **Materials and Metrology**
13. **Novel applications of nanomaterials**
14. **2D Materials and devices**
15. **Materials for agriculture productivity**
16. **Nuclear materials and Dosimetry**
